

Drake AuClaire

Motivated and dedicated undergrad working towards a Bachelor's degree in Computer Science. I am seeking a challenging position as a software developer. Eager to apply academic knowledge and skills to contribute effectively to the development of innovative software solutions while gaining practical experience in a professional environment.

WORK EXPERIENCE

Cultivate Craft Kitchen, 12234 S Draper Gate Drive — Front House

October 2023 - PRESENT

Collaborated closely with servers and kitchen team members to maintain clear communication resulting in smooth operations during busy hours.

Interacted with guests in a friendly and professional manner.

Provided assistance, answered questions, and accommodated for special requests.

EDUCATION

Westminster University, 1840 S 1300 E — Computer Science

August 2022 - May 2026

As a dedicated Computer Science student at Westminster University, I am passionate about exploring the intricacies of software development and emerging technologies. With a solid foundation in programming languages such as Java, C, Python, SQL, HTML, and CSS. Eager to leverage my academic knowledge and hands-on experience gained through coursework and projects to contribute effectively to innovative software solutions. Seeking opportunities for internships or entry-level positions to further develop my skills and make meaningful contributions in the field of technology.

Murray High School, 5440 State St, Murray — HS Diploma

August 2018 - June 2022

Strong academic background in Advanced Placement (AP) and Honors classes. Demonstrated ability to excel in challenging coursework while maintaining a high GPA. Proven track record of active participation in class discussions, group projects, and extracurricular activities.

5567 S Adaley Avenue

Murray, UT 84107
